Re: FOIA Request Regarding Water Pollution from Pharmaceuticals and Personal Care Products

Dear EPA FOIA Officer:

This letter requests information pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 and the pertinent U.S. Environmental Protection Agency ("EPA") regulations, 40 C.F.R. § 2.100, *et seq.*

I. RECORDS REQUESTED

This FOIA request encompasses the period from January 1, 2008 to the time a response is provided, and seeks the following:

1. Any records addressing the quantitative extent of pharmaceutical and personal care product (or "PPCP") pollution in surface water, groundwater, wastewater treatment plant influent, wastewater treatment plant effluent, drinking source water, and/or finished drinking water.
2. Any records addressing harm to aquatic organisms and humans from the presence of pharmaceutical and personal care products in surface water, groundwater, wastewater treatment plant influent, wastewater treatment plant effluent, drinking source water, and finished drinking water. This request includes, but is not limited to, all such records discussing harm to reproductive systems, behavioral or social changes, susceptibility to disease or death, endocrine disruption, bioaccumulation, and the growth of antibiotic resistant bacteria.
3. Any records addressing the ability of wastewater treatment technologies to remove pharmaceutical and personal care products from wastewater. This request includes any documents related to the pharmaceutical removal capabilities and relative costs of disinfecting oxidation (chlorination, ozonation, or UV irradiation), biological processes (activated sludge or biological nutrient removal), activated carbon, high-pressure

membrane filtration (nanofiltration or reverse osmosis), TAML oxidant activators, or any other treatment technology that has been tested for its ability to remove pharmaceutical pollution.

4. Any records addressing plans by EPA to:
 - a. publish information, guidance, or a rule related to the ability of secondary treatment to remove pharmaceutical and personal care product pollution at wastewater treatment plants; or
 - b. develop and publish aquatic life criteria for contaminants of emerging concern under Clean Water Act § 304(a); or
 - c. update EPA's Guidelines for Deriving National Recommended Water Quality Criteria.

We define "records" to include all data, analyses, studies, articles, correspondence (including emails, telephone messages, text messages, and internet "chat" or social media messages), memoranda, reports, notes, notices, meeting notes, calendars, telephone logs, telefaxes, photographs, videos, maps, diagrams and other records, whether paper or electronic.

This request applies to any records within, or exchanged between, the following EPA offices: Office of Water, Office of Inspector General, and Office of Research and Development.

In the event that any requested document is claimed exempt from disclosure, please identify each allegedly exempt record in writing, provide a brief description of that record, and explain the agency's justification for withholding it. If a document contains both exempt and non-exempt information, please provide those portions of the document that are not exempted from disclosure. Finally, if a document does not exist, please indicate that in your written response.

We remind you that FOIA requires a response within twenty working days, pursuant to 5 U.S.C. § 552(a)(6)(A)(i) and 40 C.F.R. § 2.104(a). We ask that you disclose the requested information as it becomes available to you without waiting until all of the records have been assembled for the time period requested. To the extent responsive records are available in an electronic format, we would prefer to receive electronic versions of the records.

II. REQUEST FOR A FEE WAIVER

We respectfully request that you waive all fees in connection with this request, as provided by 5 U.S.C. § 552(a)(4)(A)(iii) and 40 C.F.R. § 2.107(l).

- A. Disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government.

The subject of this request concerns the operations and activities of the federal government, specifically EPA's research and regulatory activities regarding pharmaceutical and personal care product pollution in our waterways. The requested information will increase the

public's understanding of the risks to our nation's water from pharmaceutical and personal care product pollution, as well as the extent and nature of EPA's efforts to reduce those risks.

Earthjustice is a national nonprofit environmental law organization dedicated to protecting the magnificent places, natural resources, and wildlife of this earth, and to defending the right of all people to a healthy environment. Earthjustice has made safeguarding the nation's waters one of its top priorities, and our members have a strong interest in the water pollution issues involved in this request. In light of its substantial legal and environmental expertise, Earthjustice is well-prepared to analyze and evaluate the records we receive pursuant to this request. In addition, Earthjustice has the ability to disseminate the information we obtain through FOIA requests to large segments of the public by means of membership correspondence, publications, websites that are visited by millions of people each year, numerous educational programs and media initiatives, and other communications. The disclosure of the requested information will contribute significantly to the understanding of a broad public audience of persons interested in the subject.

B. Disclosure of the requested information is not primarily in the commercial interest of the requester.

Earthjustice is a nonprofit, public interest organization with no commercial interest in obtaining the requested information. Earthjustice does not charge for its legal services, nor does it have any financial stake in the litigation it undertakes. Earthjustice has spent years successfully promoting the public interest through the development of policies that provide enhanced environmental protection, including for our waterways. The public will be the primary beneficiary of this requested information because we have no commercial interest in the requested disclosure.

For all of the foregoing reasons, a fee waiver is warranted under 5 U.S.C. § 552(a)(4)(A)(iii) and 40 C.F.R. § 2.107(l). If EPA does not believe that the above information is sufficient to justify a fee waiver, please contact us for further documentation before deciding upon the waiver request.

Thank you for your assistance in this matter. We look forward to receipt of the requested documents. Please do not hesitate to contact me to clarify the request, or to otherwise expedite and simplify your efforts to comply. I can be reached at (202) 797-5233 and asewell@earthjustice.org.

Sincerely,

Earthjustice
